#### PLAN FOR DISTRIBUTION OF OPERATIONAL FUNDS FOR FY 2000-2001

Mr. Marvin Roubique, Deputy Commissioner for Finance and Facilities, presented the staff plan for distribution of operational funds for FY 2000-2001. He indicated that an amount of \$11.9 million had been appropriated for operational expenses for postsecondary education. The procedure for the distribution of these funds was similar to procedures used in previous years. Those formula institutions whose formula implementation rates were below the state average implementation rate received funds from the distance pool (34% of the available funds) and then each institution received funds from the pro rata pool (66% of the available funds). See Appendix B for a listing of the procedures and amounts for each institution.

After discussion, the Committee took the following Action:

On motion of Mr. Woods, seconded by Mr. Baptiste, the Finance Committee unanimously recommended that the Board of Regents adopt the staff's plan for the distribution of the operational pool funds for FY 2000-**2001.** (Appendix A)

#### **EQUIPMENT POOL FUNDS FY 2000-2001**

Next, Mr. Roubique presented a plan for distribution of \$15 million, appropriated in the capital outlay bill for FY 2000-2001, to be used for the purchase of library, academic, scientific (including research) and instructional equipment. The plan used the same procedure as in past years, which was a proration of each institution's full formula funding amount to the total state formula full funding amount. Additionally, guidelines for equipment acquisitions were prensented. These funds are intended to supplement, and not supplant, normal institutional

expenditures. High priority should be placed on acquisitions that address institutional or specific discipline accreditation, national certificate needs and technology needs of teacher education programs.

After discussion, the Committee took the following action:

On motion of Regent D'Aquin, seconded by Regent Robinson, the Committee unanimously recommended that the Board of Regents approve the plan for distribution of equipment pool funds and the guidelines defining those purchases for FY 2000-2001. (Appendix B)

### LSU HEALTH SCIENCE CENTER STATUS REPORT

Mr. Bill Silvia, Executive Vice President of the LSU System, and Mr. Robert Plaisance, Assistant Vice President for Medical and Fiscal Policy, provided a status report on the fiscal situation at the LSU Health Sciences Center. Mr. Silvia indicated that the system had implemented various management tools to provide fiscal support at each campus. Mr. Plaisance reported that the LSUHSC ended the fiscal year with a positive balance and that FY 2000-2001 budget projections were positive.

#### **ADJOURNMENT**

There being no further business, the Committee adjourned at 11:50 a.m.

## **EQUIPMENT FY 2000-2001**

This appropriation is applicable to library, academic, scientific (including research) and instructional equipment acquisitions and is intended to supplement and not supplant normal institutional expenditures in this category. High priority should be placed on acquisitions that address institutional or specific discipline accreditation, national certification needs and technology needs of teacher education programs. Items used in the conduct of agricultural research will be allowed with proper justification. For example, a vehicle, a tractor, and/or other field equipment used specifically for field experimental work will qualify. Plans, approved by each management board, are to be submitted with operating budgets and include a description of goals and accomplishments of the plan.
